What is PawPaw

PawPaw is an insurance product designed to cover the unexpected veterinary costs that pet cats or dogs may incur as the result of illness or injury. PawPaw is underwritten by Renasa Insurance Company Limited (Renasa) and administered by Pet Underwriting Managing Agency Limited (P.uma). In return for paying your premium, Renasa will cover the pet cat or dog named in the policy schedule for the cost of fees incurred as the result of veterinary treatments for illness and injury.

All pets from 8 weeks to 8 years can join the PawPaw policy. We do offer Accidental Cover for pets older than 8 years (Accidental cover is offered on a different policy). The pets must be a household pet in the RSA. All vaccinations must be up to date at the time of joining. The PawPaw policy has a waiting period of 30 days from the inception of the policy

What we cover

 - b. Rehabilitation (post-operative only) treatments, specialist referrals, further diagnostic workups, blood tests, MRI / CT scans, radiology, radiation / chemotherapy, surgeries, chronic medication and prosthesis requires pre-approval and is subject to case management and clinical protocols. P.uma will require a detailed treatment plan from the treating Vet.
2. Chronic treatment plans may be purchased at an additional premium as a complement to this insurance plan. Chronic treatment plans are subject to treatment protocols (appropriate treatment plans) as determined and approved by P.uma (under the guidance of our Vet). A detailed treatment plan must be submitted by the treating Vet for approval by P.uma.
